

Technical Note: Hawki® Compatibility with the VAV-4040

A typical application for a VAV module is to use it as an associated zone with the Hawki Advanced Air-Handling Unit Controller (Part No. 739060000). However, the Hawki Advanced must be equipped with a PROM Version 5.0 or later (Part No. 639051010), available free of charge from Novar Controls. New Hawki Advanced modules will be equipped with this PROM so they will be compatible with the VAV-4040.

NOTE! The VAV-4040 is not compatible with Novar Controls' original Hawki Air-Handling Unit Controller (Part No. 739000000).

Additional information can be obtained from Novar Controls' Technical Support (Tel.: 800.348.1236).
